This is just a quick note, but it comes from my heart to yours as I head out the door to meet a girl. She has forgotten her trouble for a moment in time. Having fun with our horses, or having a meal together with me, she has a future and can be well.

The reason for my note is to THANK YOU for your very kind donation, which we received recently. Your generosity will make an impact today with an immediate difference in the life of a deserving girl needing our services at Farmtown Canada and teaching at Courage for Freedom.

So many girls and teen girls are connected to us needing specialized help for their futures. Many are at-risk and disadvantaged by the things they have experiences, they come from all walks of life, some from homes that are highly dysfunctional, one parent without support and often living at the poverty level, some from homes that are two parented, with great incomes too. Exploitation is no respecter of socio economic status. Every girl we see is deserving of hope, support and time.

Here's just a few comments from girls who we served with love and care recently:

"I am safe with Kelly"
"I can talk out my problems"
"the horses love me unconditionally".
"I am not judged by my past".
"I am learning how to care for myself."
"she believes me"

All of these good things are only possible because of friends like you and our past contributors. THANK YOU for investing in the precious lives of girls. Donations, book purchases and donations in kind are helping bring new hope, healing and a fresh start to each life we serve today too!

Thanks again from me personally and eieio
