Stories throughout

Best Dressed Prize Awarded

GRACE

Blessed are we who live in this
land of plenty,

Blessed are we who are free

Blessed are we who can
discuss and disagree

within the framework of our
sisterhood.

As we enjoy these days of
companionship,
stimulation and decision,

Let us not forget those who
have gone before and

Let us pray for guidance for
those who follow.

Awareness

To extend to members and
the community an
enhanced awareness of
issues, interests and
practices that affect
women at municipal,
provincial, national and
international levels.

Action

To effect positive change
for women through
advocacy, community
outreach, networking and
collaboration with like-
minded organizations.

Advocacy

To support women in
developing their capacity
for leadership, effective
communication, personal,
professional and
business excellence.

The Business and Professional
Women's Club of Brampton
is an equality-seeking group
working toward the
improvement of economic,
employment and social
conditions affecting women.
